7	HCV/HCS protection	<p>ANWE's log suppliers manages the concession area with responsibility to conservation value.</p> <ul style="list-style-type: none"> ▪ The forests managed by Forestry Corporation have been thoroughly assessed and zoned according to their conservation value using the Forest Management Zoning (FMZ) system. ▪ VicForest does the precautionary principle before harvesting. Prior to the commencement of harvesting operations, pre harvesting biodiversity survey was carried out across all areas planned for harvesting in order to identify key ecological communities, threatened species and/or their habitat, as well as the presence of High Conservation Values. ▪ Sustainable Timber Tasmania identifies harvesting areas and begins its planning several years before harvesting operations takes place. Biodiversity is managed at multiple spatial scales, from operational (individual coupes) to the landscape scale in the Permanent Timber Production Zone (PTPZ) land. 	<ul style="list-style-type: none"> ▪ Forestry Corporation of NSW PEFC Certificate Number: AFS 604224 ▪ VicForests PEFC Certificate Number: FMS 20003
8	Species protection as listed within the IUCN red list of Critical Endangered Species and Convention on International Trade in Endangered Species (CITES)	<p>Covered by PEFC FM Certificate.</p> <ul style="list-style-type: none"> ▪ Forestry Corporation of NSW PEFC Certificate Number: AFS 604224 ▪ VicForests PEFC Certificate Number: FMS 20003 ▪ Sustainable Timber Tasmania PEFC Certificate Number: PEFC 693186
